

## Standing Officers

JBM Patrol & Protection Corp. will provide you with any number of our well-trained security officers that would be necessary for the protection of your property, visitors, and employees. A veteran field security officer and manager work together with our customers to create a set of Post Orders for each assignment. These Post Orders are a set of mandatory duties which our security officers must execute every shift. A field security supervisor will train, on-site, all security officers assigned to each location. For each assignment, our security officers write and submit Daily Shift Reports. A Daily Shift Report is a detailed account of the security officer's activities performed and observations made throughout his or her shift. Our security officers are trained by police officers to write reports for not only prosecution but to limit our client's civil liability.

## Car Patrol Services

Our car patrol service is very affordable and operates 24 hours a day, seven days a week. Our car patrol officers patrol various businesses or neighborhoods on a random or scheduled route. A uniformed patrol officer will arrive at our client's property and conduct a walk-through or general patrol lasting from 5 to 30 minutes. Our clients determine the number of visits per shift. Our patrol is not the typical security truck drive through. Our car patrol officers inspect our client's property, walk the property, and prepare a written report for each visit.

## Areas Served

Southern Wisconsin, Eastern Iowa, Eastern Minnesota and Northern Illinois with offices geographically located to meet the needs of our clients in the markets we serve.

## History

JBM Patrol & Protection Corp. was founded in 1990 by James B. Mankowski as a private patrol and security services agency.

## About Us

JBM Patrol & Protection Corp. is a progressive private patrol and security services company providing the most comprehensive services available. Our level of service often requires armed or unarmed security officers and corporate level security professionals. Typically, our clients employ our services for neighborhoods, corporate facilities, production plants, financial institutions, law firms, retail stores, private corporations, multi-family housing, and in emergency situations.

## James B. Mankowski President

James was introduced to the security industry at a very young age. He had always aspired to own his own company, and as a result, he established JBM Patrol & Protection Corp. in 1990. His mission was to provide his customers with security personnel who were competent, sophisticated, firm and customer service oriented.

James leads the company in its business development and growth efforts, pioneering innovative ideas to assist in the security needs for businesses. He also manages the day-to-day operations of our Madison office, which includes working security assignments and training new officers and veteran officers during their annual training updates.

James is also a police officer, firearms instructor, and certified protection officer. He has received extensive training in the areas of guard force management, police department operations, emergency management, work place violence, and business management.

- Scenarios

## Our Mission

To provide the best possible protective services for our clients with continued responsibility and commitment to the communities we serve.

## Why JBM?

Dedicated to developing and implementing specialized security guard programs for each of its clients, JBM provides superior service in a cost-efficient manner. Its commitment to professional quality security services is unmatched. With its exceptional security personnel, JBM sets the industry standard for excellence.

## Management Team

Our management members are available 24 hours a day, seven days a week. At JBM Patrol & Protection Corp. we understand that our management personnel need to be out in the field to work with our clients and employees. Our management is consummately dedicated to personal interaction. More importantly, we realize that this is necessary so our people work varied schedules to ensure a 24-hour-a-day commitment to our clients.

## Cost vs. Value

There are a growing number of private security companies that offer service at an unacceptably low level as a result of the extreme competitiveness of the industry. The continuation of this practice results ultimately in a deterioration of security services, increased personnel turnover and higher business costs. We only employ fully trained, drug tested and properly screened patrol officers. Our prices per hour may be a little more than our competitors, but we only offer academy trained personnel. The value of having a JBM patrol officer is beneficial, and in the end we cost less than our competition.

## The Benefits

You need to trust your security firm. Whether you're faced with a crisis in the workplace or need an individual bodyguard, we provide an immediate response and the best officers in the area. Our track record is 100%.
